BY AMERICORP FINANCIAL

**S**ince 1986, Americorp Financial has been a leader in the equipment financing industry. That's why many of the nation's leading manufacturers and distributors consistently turn to us to meet their customers' growing financing demands. Today, Americorp continues to meet and often exceed requests for better financing services.

Introducing **SelectLEASE** — the industry's most innovative and full-featured leasing program. Designed specifically to meet the demands of today's businesses, **SelectLEASE** makes it easier than ever for companies to obtain the equipment they need to be most successful.

The essence

## **SelectLEASE** Sets the Standard

**T**oday's business community has no shortage of leasing companies. Therefore, it is imperative for the best companies to differentiate themselves. Americorp Financial feels that it sets the standard in three essential areas: Price, Service and Flexibility.

## **SelectLEASE** Pricing

**T**oday's fiscally conscious business person is often quick to ask the question: What's it going to cost me? Unfortunately, at many of today's "cookie-cutter" leasing companies, the answer is the same despite a company's time in business or level of profitability. At Americorp, we feel we have developed the most equitable pricing system in the industry. Because we work with a variety of underwriters — each of whom specializes in different types of businesses — we are able to truly match credit strength and price. In other words, we are able to offer customized pricing that takes into account the specific characteristics of each of our customers.

# ential financial resource for today's business

## Select LEASE and Service

*At Americorp, we feel that the level of Customer Service a company achieves says a lot about its overall quality. In this light, we continue to focus on our Customers and their needs. We feel we have been able to set ourselves apart in the following ways:*

- *Written lease quotes within hours of your request.*
- *Same day approval for many customers.*
- *Contracts that are sent overnight the day they are requested.*
- *Leasing professionals always available to answer your questions.*

*At Americorp, we truly put the customer first.*

## Select LEASE Means Flexibility

**B**ecause Americorp works with so many different types of businesses in so many industries, we knew our **Select LEASE** program had to define flexibility. It had to give our customers the sense that their specific financing needs could be addressed. We feel we have achieved this goal and, in the process, developed options that every customer will appreciate.

- Both Capital & Operating style lease programs.
- Custom rental & usage finance agreements.
- Lines of credit that can be used for future purchases.
- The ability to put many types of equipment on one lease.
- Graduated and Deferred Programs that help new businesses get started.

In short, we can design a program that fits virtually any budget.

## Hence the Name...

**T**he **Select LEASE** Program is the result of over a decade of work. The "Select" represents the many things that Americorp has chosen to highlight to make our program special. It is our constant focus on Price, Service and Flexibility that has allowed us to become an industry leader. It is this focus, along with our respect for our customers, that will assure our success in the future.
